

ARE YOU READY TO [B]EE EMPOWERED? ARE YOU READY TO [B]EE INSPIRED?

WHAT DO WE NEED TO DO TO PROPERLY PREPARE FOR OUR BEE TRUE TO YOU SHOW?

 To ensure the ultimate success of your live musical experience, we need your assistance with the following:

[WHERE TO HOST THE SHOW]

Though we highly recommend the room with a stage, we are fully equipped to perform our live show anywhere your students fit and is available! This includes, auditoriums, gyms, cafeteriums. If you do not have a stage- No problem! We just ask for your chosen location to be large enough to fit you student audience and a projection screen set up, up to 120 inches. During the performance, kids will be asked to participate and dance along, so no need to set up chairs or bleachers for your students, unless preferred.

[HYPE UP THE SHOW]

- Make sure to post our Bee True To You Touring Poster that promotes when we will be coming to your town. Post it up in your school, and blast it out via mass email to your parents.
- Screen our Promotional Video in your classrooms for both your students and teachers, so everyone is aware of what to expect! You can view this video, along with others, on our YouTube channel. Search for "Bee True To You" and hit the subscribe button while you're there!
- Engage parents and invite your PTA/PTO or Anti-Bullying Specialists so they feel included and best understand how to further carry out our empowering and inspiring messages.
- Play our Theme Song and Positive Affirmations Audio Track in your classrooms or over your loud speaker to get kids SUPER hyped for our Pop/Rock Original Music. You can find out music on spotify or your preferred streaming platforms by searching: TOBI & BTTY the BEE

[HOW TO SET UP OUR PERFORMANCE AREA]

We come with our own professional sound system, wireless microphones and engineer, but we could use your help with the following:

- Access to an extra microphone (wireless preferred) would be great for our interactive segments!
- Please clear off the stage and performance area. It is a liability to have children near the setup and breakdown of equipment.
- Make sure basketball hoops are stowed away.
- Have chairs on stage from band practice? No problem, but please push them as far back as possible.
- Should you have a projection screen setup, please make sure it is readily available and have a janitor or tech staff member available to assist.
- Turn on any available stage or professional lighting.
- Make sure a row of seats are set up for your teachers and staff.
- Please provide access to two separate working power outlets.
- Please provide (1) table for our use. This table will be used in the audience for Sound Purposes.
- Please make sure your head custodian is aware of our performance arrival and start time, AND available should we need any additional assistance.
- Water for the cast, if available, would be very much appreciated!

[POST SHOW]

- Make sure to follow up with a BTTY NATION Team member to find out how you can receive your free post show curriculum for teachers and students!
- Follow up and connect with us! Subscribe to our Youtube channel and music streaming platforms and [b]ee on the lookout for new music and new videos!

Thank you for choosing us here at Bee True To You!
